

Pahang Expedition
1891

Miss 4485

From whom

A. H. Woodgate

91

Place

Perak

Date

18. 4. 91

Applies for employment with the
Party despatched on or about 15th
to Pahang for exploration

Former Papers.

MINUTES.

Final Paper.

Mr. Rider

For your remarks

arr. Col Lee

27. 4. 91

Hon. Col Lee.

I am afraid that the
expense of an additional assistant
at \$10. per day is utterly out of the
question, as it would amount to
nearly $\frac{1}{3}$ of the whole of the money voted

N.W.R.

May 4th 1891

Sapa April 18th 1891

The Hon. Sir Frederick Dicksen K.(H)
Colonial Sec. S.S.

Sir, I have the honour to ask you
to forward to His Excellency the form
this application for employment with
the party despatched or about to be so.
to Sapa, for exploration. —

I should I think from my knowledge
of the country be able to give valuable
assistance. The enclosed plan
compiled entirely from notes made
by myself will show that I have
had some experience in the kind of
work. I have ascended several of
the high peaks on the dividing range
overlooking Cameron's plateau and
have made several excursions into
the same. When prospecting for a
road via the Kawpas in August 1889
I ascended what I believe to be Supung
Tahan, though it is impossible from
names alone to identify Malaya
mountains the same being quite different
in different parts of the country. If the
party

has already started I could join them
at Kwoala Lapi. Pahang or elsewhere

I believe that with guides & horses
the Sakai tracks any part of Cameron's
Plateau could be reached in six days
from here or Jopeng.

From Jopeng to the top of the hill
knocked joining Berembuan or Jahan
in my plan is 4 days, with guides
& from here to joining Kallau near the
end of the Sapa road is 3 or 3 1/2 days

When employed by the Perak Govt
on similar work, for instance prospecting
for a road at ulu Kampar. I have been
paid at the rate of \$10. per day for myself,
clothes for transport being supplied
or above this.

I have etc
